

Success Story: Shivam Cotton Industries, Jodhpur(Raj)

Shivam Cotton Industries, a cotton ginning unit is established at K.NO. 81/2 & 78/2, Gram Nandiya Khurd, Tehsil: Bawari, Dist. Jodhpur in Rajasthan which is known for its cotton belt.

The project technology is latest & eco- friendly. The project has been set up with total project cost of Rs. 348.00 Lacs and credit facilities have been sanctioned by Corporation Bank, Chopasani Road Branch, Jodhpur. The firm has also availed assistance of Rs. 29.43 Lacs from Small Farmers Agribusiness Consortium (SFAC) under Venture Capital Assistance Scheme of SFAC (Interest free Loan) on 21.10.2014. The unit is working at the capacity of 60 MT/ per day during season and has achieved the turnover of Rs. 3572.57 Lakh in the year 2016-17 as against Rs. 1472.09 Lakh in the year 2015-16.

Manufacturing Process

Firstly, the raw material i.e., Raw Cotton is procured directly from farmers. Then it undergoes the process of Ginning in which cotton and cotton seeds are separated and are stored separately. The cotton seeds so obtained are dispatched to Oil mills. The cotton obtained after ginning undergoes the process of Bailing and Pressing resultantly, the cotton bales are obtained. Finally these cotton bales are dispatched to the market.

Social Impact

The firm requires Cotton (Narma and Rui) as its raw material, which it procures directly from farmers. The promoter are giving the better price of Cotton (Narma/Rui) to the small farmers and also imparting and sharing the knowledge free of cost to produce good quality of Cotton on their land. The project also has created off farm job opportunities of more than 7000 man- days for skilled/unskilled workforce. The firm is providing them all of facilities and working environment. The entire process of Cotton Ginning in the mill is pollution free
