RAW HONEY

Collected directly from the beehives; filtered and packed, unprocessed, for maximum nutritive benefits.

- **Forest floral:** Produced by bees that primarily forage on nectar from flowers in forested areas. Very sweet in taste, with a pleasant smell and flavour
- **Unifloral:** Made with different flower varieties, it is a connoisseur's delight; over half the pollen comes from one plant species, yielding a distinctive colour, aroma and flavour
- **Multi-floral:** Derived from the nectar of various flowering plants and blossoms, hence giving it a unique taste and texture
